

Brief Review of Year's Activities Shows Considerable Improvements

Coleman Light & Water Co. Improvements to Distribution System Totals Nearly \$13,000. Proposed Expenditure for 1930 Will Be Additional \$8000.00

A review of developments in Coleman during the year just closed does not record any striking improvement, due to the fact that taxes were delayed in payment owing to slack work in the mines.

A total of \$3,589.00 was spent on the following items: Basement under the town hall and furnace, approximate cost \$700.00; dry wall on Fourth street \$230.00; road repairs and maintenance \$1659.00.

Among the improvements were street lighting on Main street, and painting of three of the school buildings.

There was more painting and improvements of private buildings and residences than for some years, which improved the central portion of the town, but there is still plenty of scope for further improvement along this line.

Coleman hotel, the pioneer hostelry of the town, was recently further improved by an expenditure of approximately \$7,000.00.

Light & Water Co. Improvements

Coleman Light & Water Co. Ltd. during 1929 expended \$9744.07 in additions to the waterworks system, and a further sum of \$3,244.20 was expended on the electric light system. During 1930 the company proposes expending an estimated amount of \$4,000.00 on the waterworks and \$3,886.00 on the lighting system.

Their biggest items of expense in the town:

1929 was the improvement of the distributing system on Third street and Victoria avenue and service connections, costing \$3768.43, and main line to the dam and improvements to dam \$5736.39.

In the lighting branch the biggest item of expenditure was the new distribution line on Fifth and Sixth streets, costing \$3021.84.

The plants of both the International and McGillivray coal companies are splendidly equipped to meet all market requirements, and the International Co. during the year erected a fine residence for the secretary.

Board of Trade activities were devoted towards arousing interest on the part of the provincial government towards establishing a provincial park at Crow's Nest Lake, the laying out of an emergency flying field west of Coleman, and co-operating with Boards of Trade from Fernie to Lethbridge in bringing before tourists the scenic advantages of the "Crow" route through the Rockies, Coleman, bearing its share of the cost of printing and distributing 20,000 illustrated 16-page folders and route maps.

A business concern that has not made much noise but has made steady progress throughout the year is "Star Creek Fox Farm, West of Coleman, and this promises to develop into an important industry, bringing increased business to the proprietors and residents in the town.

MASONIC OFFICERS INSTALLED AT BLAIRMORE

On Friday evening a joint installation of officers of Sentinel Lodge, Hillcrest; Rocky Mountain Lodge, Blairmore, and Summit Lodge, Coleman, was held at Blairmore, followed by a social hour at which supper was served by Blairmore members.

Summit Lodge officers installed were: R. F. Barnes, W.M.; J. R. Wood, S.W.; A. E. Graham, J.W.; J. Emmerson, treasurer; Maurice W. Cooke, secretary; T. E. Tyler; Alan J. Brown, S.D.; Sid Short, J.D.; S. H. Garner, S.S.; H. T. Halliwell, J.S.

The first regular meeting of the year will be held tonight.

Salvation Army Entertain Children

The dinner given by the Salvation Army on Christmas Day was attended by nearly thirty children, who were plentifully supplied with roast turkey and the trimmings.

Following the dinner Santa Claus arrived and distributed presents, nuts and candy to the children, who were highly pleased with the entertainment provided. Among those who assisted in serving the children were Capt. Fowler, Lieut. Zoutendyk, Geo. Pattison and daughter Jean, Mrs. Griffith and daughter Annie, and Mrs. Robt. Holmes. Capt. Fowler states that generous support was given to his appeal to provide Christmas cheer, and the dinner was cooked by Long Kam of the Coleman Cafe.

800 copies of the Christmas edition of the War Cry were sold by Capt. Fowler and Lieut. Zoutendyk in the towns of the Crow's Nest Pass and at Cowley.

Musical Festival in April

Copies of the syllabus of the sixth annual Crow's Nest Pass musical festival have been issued, and interested parties may obtain copies from members of the committee in Coleman: J. W. J. Harris and J. H. Fulton, or from the secretary, Frank J. Smith of Hillcrest, April 21-22-23, at Blairmore.

Ruth Morrison and Adele White-side have been spending the holidays at their homes, having returned from spent Christmas holidays at Spokane, Victoria previous to Christmas.

1930 A New Year

Life and Progress demand Change!

Nothing can remain as it was. The law of life is progress. That is why the normal instinct of man is always towards new ideas and development. In nature itself man can observe the object lesson of constant change.

It was intended to be so. To succeed demands constant effort. If you do not continue to put forth effort for improvement, and impose self-discipline, you cannot progress.

Each day must see something aimed for, something accomplished, if you are to keep climbing to higher and better things.

It matters not what your vocation may be, the goal is ever before you; high or low, rich or poor.

We are to a great extent the makers of our own destinies. Think over it; keep it in view during the coming year, and the more you strive, the happier you'll be in accomplishing useful work.

This is the best New Year's message The Journal can extend to its readers and friends.

Hockey Interest Warms as Schedule Advances --Juniors in Limelight

Honors are Even Between Coleman and Lethbridge—Contest on Monday Next—Blairmore to Play—Juniors Stepping Out in Fast Games

Locals Won First Game with Lethbridge on Christmas Day by Score of 4-2.

Coleman Canadians won by 4-2 in their first match with Lethbridge Tigers in the Crow league series on Christmas Day. Despite heavy ice caused by three days of mild weather, a keenly contested game was productive of many thrills to the more than 300 fans who were present, and the teams were fairly evenly matched.

Lethbridge opened the scoring in the first period, Henderson shooting it in from a scuffle around the goal. Jenkins of Coleman forward line soon evened the score, making it 1-1 at the close of the period. No penalties were given in this period.

In the second Draffin scored for Kiever for the Tigers, and Fraser assisted by Jenkins and Jenkins assisted by Lilya netted the puck for Coleman, placing the score at 3-2 at the close of the period. Boles of Lethbridge and Velpava and Lilya of Coleman each drew a minute penalty.

The third period saw determined effort by Lethbridge to even the score. Kiever of their forward line putting up brilliant play, but the heavy going on sloppy ice was a handicap to fast work. About five minutes before the close Jenkins tallied the fourth goal.

for Coleman, on a rebound from Fraser. Jenkins and "Bill" Gate of Coleman were handed penalties.

Velpava and Gate on Coleman defence both put up a fine game, the former being in good form and making several spirited solo attempts to score.

The pace set by both teams was surprising as hockey fans did not contemplate a fast game in view of weather conditions. The Lethbridge boys for their first season as a re-organized team created a good impression, and it is anticipated there will be keen rivalry for league honors throughout the remainder of the series.

This was the seventh of the twenty games scheduled for the "Crow" league series.

The Line-up

Lethbridge: Huntley, goal; Henderson, Webb, defence; Kiever, Anderson, Draffin, forwards; Boles, Garrett, Reynolds, subs.

Coleman: Cologrosso, goal; Gate, Velpava, defence; Fraser, Lilya, Jenkins, forwards; Chapman, Martini, Kubin, subs.

Referee, Walter Scott of Blairmore.

Lethbridge Won Yesterday

Lethbridge won the return league game on their home ice by a score of 3-1. Time does not allow a detailed report of the game in this issue.

COLEMAN JUNIORS

WON AT BLAIRMORE

On Monday, Dec. 31, Coleman junior hockey team defeated Blairmore Taxis at Blairmore by a score of 2-0. Coleman's lineup was: DePecto, goal; Johnson, McLeod, defence; Pattinson, Fraser, Oliver, forwards; Clark, Clifford, Korman, subs. Jack Oakes of Blairmore was referee.

The secretary of Coleman Juniors is John Clark, and A. Cornett is manager. The boys look forward to a stirring season of junior hockey in the Pass towns.

Junior Hockey Teams Play Spirited Games

Score is 1-1 in Match Blairmore v. Coleman—Fraser Score of 4 for Locals and McPhail for Visitors

The Blairmore Junior Hockey team played the Coleman boys in the Arena here on New Year's Day.

Bill Fraser gave the Coleman boys a good start by scoring a goal immediately after the game started.

During the first period most of the play was around the Blairmore goal but shortly before the bell rang Jack McPhail shot from the centre of the ice scoring the first goal for Blairmore.

The score at the end of the first period was 1-1 and remained so during the second period.

The game began to speed up during the third period and the Blairmore boys were doing considerable shooting at the Coleman goal.

The game was at its best when the bell rang, the score standing a tie 1-1.

The Lineup
Blairmore—Goal, A. Rae; Defence, Patterson, Linville; Forwards, J. MacPhail, C. Johnston, H. MacPhail; Subs, G. Blake, J. Kerr, W. Tilberg, W. Fraser.

Coleman—Goal, Tony De Cocco; Defence, R. Johnson, F. McLeod; Forwards, J. Oliver, B. Fraser, R. Pattinson; Subs, H. Clifford, C. Clark, L. Griffiths. Referee—Bill Gate.

THINK IT OVER

Are you one of the millions who make the mistake of thinking that to be emphatic in your speech you have to be profane.

On the stage the past year profanity has been tolerated when it should have been suppressed. Certain shallow people, thinking the practice was smart, descended to the gutter for their expressions. They imagined their language was picturesque. It was bluntly vulgar.

No one gains force or emphasis by the use of profane or unclean words and expressions.

If you are profane because you think it is smart, or because you believe it makes your speech more expressive today is the opportune moment to change your mind. Cursing is resorted to only by men who do not think deeply.

Smart men depend upon clean speech to convey their meaning. The sluggard in speech is profane. Which will you be?—Exchange.

Al. Lonsbury and son William came home from Shaughnessy, where they are working, to spend Christmas at their home.

In Memoriam

In Loving Memory of our dear mother, Margaret, Easton, Hoggan, who passed away on Dec. 29, 1928. Thy voice is now silent, thy heart is now cold. Where thy smile and thy welcome oft met us of old; We miss thee and mourn thee in silence unseen.

And dwell on the memory of joys that have been. —Inserted by her sons and daughters.

The Old Year and the New

The old year is dying—it may be dead, passed into the limbo of the unrecalled past, before these words appear in print. A new year dawns, with all its hopes and fears. Its possibilities are good or evil, its vista of 365 days of opportunity for each and every individual.

With the passing of the old year it is customary to take a swift backward glance in an endeavor to sum up its achievements, to realize its mistakes, to note those movements and developments which make for progress or point to retrogression, in order that from observation and study of past events we may carry profit into the future.

This old custom is a good one. Whether we are prepared, or not, to accept the extreme doctrine of Evolution—that man descended from the apes—or still adhere to the Bible story of creation, the vast majority of people do believe that God and nature intended that man should grow in stature, in intelligence, in power; that there should be a steady evolution; that progress should be made in the light of past experiences. Nothing in nature stands still; it either grows and improves, or declines and dies.

Viewing the year 1929 in this critical way, and now enjoying the advantages of that hindsight which is so much clearer than foresight, what does the year's events teach us? What lessons can we carry into the new year with profit to ourselves and to the advantage of our country and the world?

Thanks very largely to the onward march of medical science, and the untiring patience of the research workers of the world, the old year was not marred by any large epidemics of disease. To a greater extent than ever before people have accepted the doctrine that it is better to remove causes of disease, and to adopt measures of protection against disease, than it is to confine our efforts to the cure of disease after it has made its appearance. As people will be wise if we even more systematically and vigorously follow this course throughout 1930. It has been demonstrated with increasing force that an ounce of prevention is worth a pound of cure. And this old adage applies to other evils as well as to disease.

During 1929, Canada witnessed a greater development of its wealth of natural resources and a consequent larger expansion in industrial activity and in its trade and commerce than in any previous twelvemonth in its history. Viewing the Dominion as a complete unit, and notwithstanding local setbacks here and there, the old year was one of prosperity for Canada and its people. That prosperity was developed along sound lines and through the application of sane policies. Our industrial and commercial growth has been the direct outcome of improved methods and by a nationally aggressive policy of reaching out into all parts of the world for markets in which to sell our surplus products. It is a policy that brought business and prosperity to Canada and at the same time benefited the world at large. Canada will do well to continue the same policy during the new year.

In the wide sphere of world politics and affairs, Canada, as much as any country, has reason for congratulation over the trend of events. The general acceptance by the nations of the Brand-Kellogg pact outlawing war as an instrument of national policy, the highly satisfactory results of the visit of Premier Ramsay MacDonald to the United States and Canada, and the better understanding created between the two great branches of the English-speaking family, the final withdrawal of British troops from Germany, the developing "will to peace" among all peoples everywhere, mark 1929 as a potent year in the cause of permanent peace through the development of international goodwill. A standard has been set for 1930 to follow and place on an even firmer foundation.

In Western Canada, in particular, the old year has been a time of testing for the greatest of our great co-operative enterprises. It has been a year of difficulty and constant anxiety for those to whom the management of that great enterprise is entrusted, as well as to every producer and business interest in this country. Fortunately, as the year closes, all indications point to the wisdom of the decisions arrived at by the Wheat Pool, and to the ultimate success of the policies decided upon. Confidence in the principles of true co-operation should, therefore, be strengthened and carried as an asset on the first page of the 1930 ledger.

Contrasted with the sound business principles, based on the law of supply and demand, adhered to by the Wheat Pool, the old year has surely taught tens of thousands of people a bitter and costly lesson in regard to the sale of stock speculation. Stock values cannot be boosted indefinitely. Over-inflation can only end one way—by the bursting of the balloon. There is a streak in our human make-up which leads us to gamble, an intense craving for wealth not earned through our own efforts by work, an overwhelming desire to get something for nothing, or next to nothing. It is a fallacy. The happy, contented man today is the one who, laughed at by his neighbors as slow and unduly cautious, invested in Government and gilt-edged bonds, and lost not an hour's sleep when speculative stocks tumbled and wiped out the life savings of thousands of less prudent men and women.

Finally, the old year must have impressed on Canadians a renewed realization of the fact that in their community, provincial and national life, as well as in the large sphere of their international intercourse and influence, there must be maintained that spirit of goodwill toward all classes irrespective of varying political views, racial descent, or religious creeds, and a Christian tolerance toward all, which alone can promote real and lasting minor exceptions here and there, this spirit characterized the Canadian people throughout 1929. May there be no exceptions whatever in 1930, and Canada and the world will be blessed thereby.

Would Know Where Canada Stands

**Soviet Ambassador To Great Britain
Anxious About Relation With
Dominion**

One of the first matters the new Soviet ambassador to Britain, M. Sokolnikoff, wishes to discuss, according to the London Daily News, is the relation between the Union of Soviet Socialist Republics and the British Dominions, notably Canada. Apparently Canada is not anxious for any changes at the present time and in this connection the Russians want to know just where they stand.

Both the Daily Mail and Morning Post are carrying on intensive campaigns against the resumption in relations between Britain and Russia, the Mail asserting that the Soviets have no intention of honoring the promises and the Post calling for mass meetings to protest against their attitude towards religion.

Textbooks In Schools

**Matter Is Discussed In British House
Of Commons**

The important matter of accurate geographical and historical text books in the schools of Britain and the Empire was raised in the British House of Commons. Rt. Hon. Sir Charles Trevelyan, president of the Board of Education, remarked he did not think he could convene a conference of publishers of schoolbooks in England and the Dominions, as suggested from a Canadian source, but he would be glad to use his good office to bring the publishers into touch with representatives of the various governments.

Sir Charles said he was not entirely satisfied that the geographical and historical text books now in use were thoroughly up-to-date. He hoped the publishers were paying attention to the recent report of the Board of Education's committee dealing with the matter.

Solved Very Real Difficulty

**Rotterdam Looked After Animals In
Antwerp Zoo During War**

During the bombardment of Antwerp, the firing and noise of the shells struck terror into the heart of the animals shut up in the great city zoo; and after the city was taken, the difficulty of how to feed the creatures seemed a very real one, when food was short for the people themselves. Then it was that an offer was received from Rotterdam that there would be a welcome given to the animals from the Antwerp Zoo until after the war.

Minard's Liniment for Coughs.

Will Build Huge Airport

**One Of The Best Equipped Airports
On Continent To Be Erected
In Winnipeg**

One of the best equipped airports on the continent, with facilities for land and sea planes, will be erected in Winnipeg under plans formulated by the special committee of the Industrial Development Board.

Following a meeting of the board and representatives of aircraft companies, J. M. Davidson, secretary of the special committee, announced the plans for the huge airport. Perfectly equipped landing fields will be constructed, Mr. Davidson said, and they will be large enough to take care of the city's requirements for many years to come. Steps are being taken to locate a suitable site for the airport.

NO BETTER MEDICINE FOR LITTLE ONES

**Is What Thousands Of Mothers
Say Of Baby's Own Tablets**

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal Baby's Own Tablets. One mother writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years, and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so." Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Williams' Medicine Co., Brockville, Ont.

Voice Of Marconi Spans Atlantic

**Explains Difficulties Of Early Days
When Inaugurating Radio From
England**

The voice of Senator Guglielmo Marconi spanned the Atlantic Ocean recently, just as did the letter "S" 28 years ago on the memorial occasion when a radio signal coming from America was heard for the first time in England.

But unlike that early day when only himself was listening, today an entire nation heard him tell of the difficulties overcome in making the first trans-Atlantic signal faintly audible. He spoke through a microphone network of broadcast stations linked to the National Broadcasting studios in New York.

The voice of the pioneer radio inventor was brought to the United States by short waves, and a special receiver at Riverhead L.I., was linked by wire to the local studios and in turn to the network.

Dragged Down By Asthma. A smart woman was continually fastidious about her appearance, but her life's work strength departs because of a very existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air trouble, and guards against future trouble. Try it.

Two Winter Exhibitions

**Western Canada Fox Show and
Western Turkey Show To Be
Held In Saskatoon**

Saskatoon will be the venue of at least two Western Canada shows next year according to reports submitted at a meeting of the directors of the Saskatoon Industrial Exhibit.

The Western Canada Turkey Show will be held at Saskatoon, February 18-21, inclusive, and the Western Canada Fox Show will take place in Saskatoon next November.

Archibald Wilson, president of the local fair board, announced that the new winter fair building, being erected at a cost of approximately \$100,000, will be completed in about a month.

The Saskatoon winter fair will be held March 11-14, inclusive.

Minard's Liniment for Distemper.

Use Of Waste Gas

**Experiments Under Way In Saskatchew-
an For Use Of Gas In Connection
With Clay Products**

Extensive experiments are under way in Saskatchewan in connection with the use of waste gas in the manufacture of clay products. This work will be completed within the next few weeks, when the members of the commission enquiring into the situation will draw up their reports for submission to the Department of the Interior.

The tarpon of Florida can cover eighty miles in ten hours.

Wily Dope Ring Smuggling Drugs

**Canadian Health Is Menaced By Work
Of Fiendish Operators**

In a previous article it was pointed out that only during the last hundred years or so, have the most common of the harmful narcotics—morphine, cocaine and heroin been known and used. And during that time, a problem of utmost gravity has arisen—the drug habit, a habit that is a constant menace to the health of almost every nation, and which organized and wealthy gangs of unscrupulous scoundrels find it in their interest to foster.

In Ottawa, and throughout the provinces and municipalities, we have well-equipped organizations to combat the drug evil. A brief summary of some of the things that these officers have encountered in their work, will give you an idea of the astounding ingenuity with which drug operators work, and of the immensity of the problem we have on hand.

The utmost secretiveness surrounds the work of the drug operator. It is seldom that the high-ups are caught, and yet in every transaction for the sale of drugs there is a man behind. Some of them have become millionaires through their illicit traffic, and they are always, or nearly always, clever enough to make their petty peddlers, who are usually addicts and will make almost any sacrifice for the sake of an assured supply of the particular drug they crave, "take the fall," which is the term used in the dope-peddling craft for "going to the penitentiary."

When a man is in jail, and has the money necessary to buy drugs, or has earned them through getting additional recitals for the operators, the worst means are used of getting drugs to him inside the institution. The police have found drugs concealed in a woman's hair, hidden under postage stamps on a letter, sewn in neckties or some other part of clothing, in cans, fountain pens or cigarettes. A man has been known to take a hypodermic needle into jail by hiding it in his nostril, or a ten-dollar bill, with which to buy narcotics, in his ear or some other part of his body. The rubber heel of a shoe. These are deceptions that would not occur to most people, but the cunning of the drug addict in trying to get what he wants is something to begeth admiration.

There is to be considered the cleverness with which the habit is spread. The covert invitation "Come to our snow party," that is given to young boys and girls, means that somebody is getting paid for it. When it is realized that a boy of 24 years of age, a convict in an American penitentiary, had before he was apprehended, taken about \$20,000 worth of drugs, and had never worked a day or earned a dollar in his life, you have some clue as to how the habit is spread. The master mind in the ring gauges the market, and sometimes creates a shortage just to get higher prices. It is then that crime becomes rampant, because so great is the distress of the habitue that, although he has no courage except in this one direction, he will do almost anything to get what his system demands. Cocaine frequently brings \$500 an ounce, and the victim usually has to steal this money.

Drug peddlers charge their poor devotees victims just what they can. The master mind in the ring gauges the market, and sometimes creates a shortage just to get higher prices. It is then that crime becomes rampant, because so great is the distress of the habitue that, although he has no courage except in this one direction, he will do almost anything to get what his system demands. Cocaine frequently brings \$500 an ounce, and the victim usually has to steal this money.

The ports of entry into Canada have to be watched with eagle eyes by the narcotic division of the federal civil service. They recently uncovered a novel scheme at Vancouver, which operators were using to get candy-banded drugs in here. They had already discovered them in trunks with false bottoms, dried fish, in false lighting fixtures, which peddlars had fastened to the ceiling of the ship, but now they find that they have to go out to meet the ship, or the drugs will reach shore just the same. The wily drug dealer had been dropping his cargo of drugs overboard, encased in watertight cans. Attached to the cans were little wooden floats. After the ship had docked, and the officers had finished their search, the operators, in peace, went out and picked up their cans again.

Sometimes the man carrying the profitable drugs will take out the whole wall of his stateroom, the partition being cut where the lower berth stands, and he will put his drugs in there, replace the wall, and go so far as to make a good painting job of the whole affair in order to avoid detection.

The activities of the narcotic division have been concentrated recently on breaking a Montreal ring, which has been operating between Montreal and Detroit. They finally succeeded in catching their quarry, "with the goods," and they found when they did that a well regulated

traffic of drugs had been carried on for years between those two cities with Pullman porters as the carriers. When the arrest and conviction of this "higher-up" took place, the price of cocaine went up \$45 an ounce over the traffic is controlled by a few night, which gives some idea of how powerful, consciousness operators.

There are no limits to which these people will go in order that they may pursue their ill-kept trade. There should be no limits almost to which Canada should go in order to free herself of a danger that may become a curse. It is worth almost any amount of trouble and patience, and it means that, to prevent one more young Canadian from joining the army of those to whom scientists refer as "the living dead," that is to say, the dope fiends.

Has Praise For Canada

**British Visitor Gives Glowing Description
Of Canadian Cities To
Manchester Audience**

A glowing description of the general appearance of Canadian cities was presented to the Manchester Geographical Society by George Gilling, after speaking of his impression of the intense loyalty in the Dominion to the British Crown as the ideal of British unity. Mr. Gilling passed on to discuss the general appearance of these cities, Toronto and Hamilton. Here, he said, was every indication of great prosperity and rapid progress. There were no slum areas, but wide, spacious streets, fine trees, large open spaces and parks, and beautiful modern buildings. In the residential districts there were unfenced grass plots with footpaths in front of all houses, and virtually every house had its verandah, where the people almost lived in the summer time.

There was an absence of any kind of public house or drinking saloon in these cities, which seemed to have a marked effect upon them. No evidence of poverty, vice or distress was to be seen, and the place of the public house seemed to be taken by palatial and comfortable cafes to which whole families went together. There appeared to be no place for men to congregate by themselves, hence most of their spare time was spent with their wives and families.

Mr. Gilling went on, by trying to impress its visitors with its importance in some way or another. It was as though Canada had caught the American boatfulness, but there seemed to him no doubt that Great Britain could learn much from Canada. For one thing, there was a strict control of advertising boards. In the city these are artistic, neatly framed, and of reasonable size. Moreover, he had not noticed any spoiling of the countryside by big and aggressive sign boards.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Extentor is an excellent medicine to destroy worms.

Mother (teaching son arithmetic): "Now, take the Smith family—there's Mummy, Daddy and the baby. How many does that make?"
Bright Son—"Two and one to carry."

Burwash Thinks New Theory

**Explorer Thinks Franklin Party Tried
Twice To Reach Mainland**

A new theory which accounts for the fact that the bodies of only about one-third of the personnel of Franklin's Arctic expedition aboard the "Terror" and the "Erebus" have been found was broached by Major L. T. Burwash, of the North-West Territories Branch of the Department of the Interior.

Major Burwash, who has just returned to Ottawa from an 18 months' trip through the sub-Arctic and Arctic regions along the north coast of Canada, thinks the Franklin party made two attempts to reach the mainland from King William Island, after being frozen in at Victory Point on the north shore.

From Victory Point the party, numbering at the time 105 men, has been traced down the west coast of King William Island to Starvation Point on the northern tip of Adelaide peninsula. Bodies of about one-third of the personnel have been found along this stretch.

Persian Balm invests every woman with subtle charm. Delicately fragrant. Cooling and healing. Dispels all roughness or chafing. Makes skin as delicately soft-textured. Every woman should use this peerless toilet requisite. Delicately—beauty—retention—Persian Balm achieves these in every instance. Softens and whitens the hands. Promotes clear and youthful loveliness. All women who care for additional charm unhesitatingly choose Persian Balm.

Renders Wool Moth Proof

**Material Treated With New Discovery
Fully Protected, Claims German
Dyes Trust**

Moth proof wool is the latest find of the German dyes trust. It was noticed that moths eating their way through a carpet, carefully avoided certain colors, so chemists started investigation of the chemical composition of the dyes in question.

The result was the discovery of a colorless substance which renders tissue of any kind impervious to moth attacks. The expert, Dr. Hermann Stöckel, states that any cloth or other material may be treated with this substance either before or after dyeing. Not only moths, but even destructive tropical insects and beetles find such tissues indigestible.

The Indian cheetah, one of the speediest animals, can travel sixty miles an hour.

The first dictionary was one of the Chinese language.

BRITISH LABOR PARTY MEETS SERIOUS CRISIS

London, England.—Ramsay MacDonald's Labor Party cabinet was saved from possible resignation when the House of Commons defeated a Conservative amendment, rejecting the coal mines bill, by the narrow margin of eight votes.

The vote was 281 against 273 in favor of giving the bill its second reading.

The division of the House climaxed the first serious crisis that has confronted the administration. Triumph of the Conservative amendment would have defeated the measure, which was one of the chief projects of the government. The bill was framed to meet campaign promises.

The narrow margin of victory was due to a lessening of government support which has hitherto come from the benches of the Conservatives under the leadership of David Lloyd George. The Liberals themselves had prepared a dissenting amendment but it took effect only on a few of the principal features of the bill and the Conservatives maneuvered themselves into the front of the battle by offering their comprehensive rejection amendment.

In the debate that preceded the vote Mr. Lloyd George denounced the bill as "incredibly bad" and as likely to raise the price of coal to the consumers. But he indicated that his party would not oppose a second reading if Mr. MacDonald would ensure them that opportunity would be given to deal with unsatisfactory aspects of the measure while the bill was still in the committee stage.

In closing the debate the prime minister agreed to consider the Liberal objections in committee. Despite this concession Mr. Lloyd George and a number of other Liberal leaders voted against the cabinet in the division.

Loud cheers came from the Labor benches when the result was certain, but these were drowned by cries, "resign" when the official figures disclosed the slim margin of government victory.

Examination of the ballot showed that there were sufficient abstainers among the Liberals to account for the Laborites' winning. Only two of the 43 Liberals in the House voted with the cabinet. The total Liberal membership is 58. The eight Independents split evenly, 4 to 4.

The cabinet vote was made up to 273 Laborites, four Independents and two Liberals. The anti-government vote was made up of 228 Conservatives, 41 Laborites, and four Independents.

Prior to the session, the total membership was figured as consisting of 289 Laborites, 260 Conservatives, 58 Liberals, and eight Independents. The absentees therefore, figured as numbering 14 Laborites against 32 Conservatives.

Famine In Irish

Free State Country

Destitution Of Farmers Is Revealed By Recent Investigation

Dublin, Ireland.—A remarkable statement of the destitution among the farming community of Leitrim County, Irish Free State, was made at a meeting of the county board of health.

The superintendent of home assistance, who distributes relief throughout the area, stated farmers who were in comfortable circumstances some time ago, were now living on potatoes and salt. They had no other clothes nor bedding and their children were scantily clad.

Where a religious examination was held recently in a north Leitrim school, out of 49 children for examination, 21 were without boots, despite the bitter weather. In the Drogheda district, it continued, there were 151 homes abandoned by farmers who had either emigrated or sold their holdings. Matters had reached a breaking point and he would not accept further responsibility for impoverished families of the county, the officer added.

The board decided to take immediate action to alleviate the distress, referring the report to the minister for local government with a view to obtaining a special grant. A member said the countryside was reduced to a state as bad as the black days of the great famine of 1846-47.

To Advocate Empire Trade

London, England.—New Zealand's high commissioner in London, Sir James Parr, is leaving his post to take up work on behalf of the movement for free trade within the Empire. He made this statement at a farewell luncheon tendered by the Empire League.

Supports Adequate Navy

Lord Beatty Believes Britain Should Not Reduce Cruiser Tonnage To Danger Point

London, England.—Lord Beatty who commanded the battle cruiser squadron at the battle of Jutland and later commander-in-chief of the Grand Fleet, told the House of Lords recently that Great Britain was approaching the coming naval conference with figures representing a dangerous minimum and an extremely low limit of cruiser tonnage.

No nation had naval commitments and obligations so great and complicated as those of the British Empire, he said, adding "God forbid that anybody should be supposed to arrive at an agreement with the United States or any other nation, but equally that anybody should lose sight of the fact that this empire was bound by the sea, that its communications were the sea, and that by the protection of the sea they depended."

Lord Beatty replying for the government, said that if the conference succeeded the government was absolutely confident that the admiralty would be wise to continue the adequate discharge of the responsibilities of the government to the country for naval defence.

The Laborite spokesman said that the object of the approaching conference was reduction in armaments. The British delegates were not, as they were to be accompanied, however, by naval advisers.

This change in the character of the delegates was an admirable change and a change for the better. It had always seemed to him to put a technical expert in the position of a delegate at such a conference was to put him in a false position. This great question could be better approached from the angle of statesmanship.

Gift To British Nation

American Born Peers Presents Historic Site To Country Of Her Adoption

New York.—The New York Times publishes the following special cable from London, England:

An American-born peer, recently bought for the British nation the historic meadow and the surrounding country at Runnymede, where King John signed the Magna Carta in 1215. The purchaser is Lady Fairbairn, widow of Urban H. Broughton, engineer and philanthropist, and daughter of the late Henry Hudson Rogers of New York.

The steady encroachments of the London suburbs have come so close that the fate of Runnymede had caused a lot of anxious speculation. Lady Fairbairn intends to present it to the National Trust, which is the guardian of beautiful and historic sites of England.

British Airmen Killed

Flight From Britain To South Africa Ends In Disaster

Tunis.—Two crashed bodies and a broken aeroplane in the arid mountain region of Zaghouan, Tunisia, marked the end of one of the most ambitious long distance flights ever attempted.

The bodies were those of Squadron Flight-Lieut. N. H. Jenkins, of the British Royal Air Force, and the plane was one in which they hopped off from Cranwell airbase, near London, on a projected non-stop flight to Capetown, South Africa.

The plane crashed into a mountain during a storm. The bodies and the wrecked machine were found by native Arabs, who carried the word to French authorities. Investigation established the identities of the men and their plane.

Appointment Temporary

Secretary To Late Minister Of Finance Is Acting Assistant Deputy

Ottawa.—Watson Sellar, secretary to the late Hon. James A. Robb, minister of finance, has been appointed acting assistant deputy secretary of finance owing to the suspension of the occupant of that post, George W. Hyndman, who is awaiting trial on several charges of theft of bonds from the department. It is understood a permanent appointment will not be made until the former assistant deputy has been tried. Mr. Sellar is a native of Huntington, Que.

Airship Will Light City

Washington.—Secretary of the Navy Adams telegraphed the Mayor of Tacoma, Washington, that the navy department will loan the new aircraft carrier "Lexington" to the city of Tacoma for a 30-day period to supply electric power, during the present emergency due to drought.

TWO AVIATORS ON LONELY TREK FROM THE NORTH

Winnipeg, Man.—Up at Churchill, on the shores of Hudson Bay, a score or so of residents are awaiting the arrival of two aviators, who by dog team are making a 500-mile journey down from Baker Lake.

The fliers are J. D. Vance and Brian Blaisdale of the Northern Aerial Minerals Explorator Company, who were shrouded at Baker Lake, an isolated mining post, when their plane was damaged.

Thaged. Churchill folk realize that Vance and Blaisdale cannot reach the bay port until late December at the earliest, they are ready for them. Natives along the bay shore have been notified that the two men are "mushing" from Baker Lake and will be on the lookout. Officials at the Hudson's Bay Company trading post are informing itinerant trappers that the two men are on the trail.

By the time that the Vance-Blaisdale expedition pounces over the inland snow drifts — or the ice hummocks, if they are travelling down along the shore ice — they will be exhausted. In view of this fact, the winter crew at Churchill are looking for the arrival of a relief plane, which the N.A.M.E. has suggested will pick up the fliers at the end of steel.

If the machine does not arrive, it is not considered likely that the two men will be forced to journey overland the 200 miles to Gillam, farthest north all-weather station.

Twice a month mail is being "mushed" into Churchill by dog-team from Gillam, but Churchill's residents believe that the Hudson Bay Railway may order a rail-conveyance placed at the disposal of Vance and Blaisdale.

Meanwhile, Canon Bertal Heene, of St. Luke's Church, comments that "if the boys should be lost in the wilderness of the north, a crime will have been committed, not only by those standing nearest them in knowledge of the facts but by the whole community, the province and the country at large."

He mentioned that Vance and Blaisdale, who were engaged in the northland search for the lost MacAlpine party, were as worthy of being brought back to civilization as any men they had sought to aid.

The two fliers are said to have left Baker Lake, at the western extremity of Chesterfield Inlet, on December 6. Presumably, they are accompanied by native guides. Vance and Blaisdale might be on the trail any time from 20 days to twice as long, depending on the weather, believe men acquainted with the situation in the sub-bay country.

Poland's Return Home

Paris.—Former Premier Poincaré, who underwent a second operation on October 21, for a difficulty which had bothered him some time, has returned to his home. The former premier hopes to spend some time in southern France recuperating.

WILL BE GUEST OF CANADA

General Jan Christian Smuts, world leader, statesman and true "Africaner Boer," largely responsible for consolidation of South Africa for British, who is to be a guest of Canada the beginning of the year.

Liner Ready For Service

Latest C. P. R. Boat Has Been Launched At Glasgow

Glasgow, Scotland.—Slipping down the greased ways embowered by fog that lifted just as a mighty splash heralded the birth of a new sea giant, the Canadian Pacific liner "Empress of Japan" was launched December 17, by Mrs. E. R. Peacock, wife of the Canadian financier. The launching was from the works of the Fairfield Shipbuilding Company. The ship is destined for the Pacific service of the C.P.R.

The new "Empress" will reach Quebec on her maiden voyage next June. She is 670 feet long, 33 feet wide, has a gross registered tonnage of 25,000 and will steam at 21 knots.

After the trip to Quebec and return it is intended to send the vessel direct from Southampton to Hong Kong, whence she will leave August 7, for British Columbia, inaugurating her Pacific ocean career.

French Conservative Paper

New Quebec Weekly, Printed In French Language, To Support Conservative Principles

Quebec, Que.—Le Journal, a new weekly newspaper printed in the French language, made its first appearance in an edition of 20 pages. In a "Foreword" Le Journal says in part:

"This paper is the logical result of the conservative convictions of Quebec and Winnipeg. If it has not the pretension of being the official organ of the party, it is none the less clearly devoted to the diffusion and triumph of conservative principles in the double domain of federal and provincial affairs."

Men Stage Demonstration

Frankfort, Germany.—Thousands of unemployed made a demonstration in the vicinity of city hall, while the city fathers were meeting to discuss granting Christmas relief to them. The entire police force was called out and formed a cordon around the hall to prevent disorders.

The Christmas Mail

The romance of the Christmas mail is one which never loses its allure or fails to bring a thrill of happiness during the greatest of all festivals. Governments, prophets, priests, and kings exchange greetings, but the Christmas letters longed for and eagerly awaited are those exchanged between families and friends separated by the seas.

In the task of making Christmas happier in this regard the Canadian Pacific Steamships play a leading role. The Company's huge fleets on the Atlantic and Pacific oceans carry millions on millions of Christmas letters each season, and with true Christmas spirit the mail is rushed with all possible speed.

Long before the liners dock, hatches are uncovered and the watch on deck musters to commence clearing the holds so that as soon as the ships are tied up the bags may be slung on shore and loaded into the special trains ready and waiting at the wharf.

The shipment on the "Duchess of York," the last Christmas mail from England, part of which is being unboxed in the picture, consisted of 8,546 bags weighing between 650 and 700 tons. Taking the average weight of a letter as one ounce a simple calculation shows that the 8,546 one hundred and fifty pound bags contained 20,510,400 messengers of peace and good will.

Sea Cables Buried

Damage Caused By Recent Earthquake Will Reach Enormous Sum

Halifax, N.S.—No repairs have been made to the extensive cable damage caused by the upheaval of the ocean bed in the earthquake of November 18, according to word brought back from the area of operations by the Commercial Cable Company's ship, the John W. MacKay.

The John W. MacKay had been grappling for cable for four weeks, and after re-stocking at Halifax will return to the scene of operations.

During the four weeks at sea, the John W. MacKay, grappled across the old cable lines without finding a trace of the cable in the "quake area. Deposits of hard clay on the grappling irons in place of the usual ooze of the ocean bottom lead to the belief that a tremendous upheaval and cracking, similar to an earthquake on land, may have buried miles of cable where it cannot be reached.

Valued at \$1,800 a mile, the loss to the cable companies is expected to reach an enormous sum.

WANTS FEDERAL CONFERENCE ON UNEMPLOYMENT

Ottawa.—Urging that steps be taken to head off depression instead of waiting until conditions become desperate, A. R. Mosher, president of the All-Canadian Congress of Labor and the Brotherhood of Railway Employees, has issued a statement reiterating his recent plea for a federal conference on unemployment.

He takes issue with the statement issued by Hon. Peter Heenan, Minister of Labor, in respect to employment. Mr. Mosher refers to the claims coming from the west "that the unemployment situation in Western Canada is the worst in six or seven years."

"If such a situation," states Mr. Mosher, "is not sufficient reason for action by the Federal Government, I should like to know how serious conditions must become before something is done. It is of no use to point to unemployment figures of September or October of last year, or to show how much better the situation was in Canada compared with the United States for those months. In both countries, the situation has become worse during the past months."

"The stock market crash occurred only in the last week of October, and its effects are now becoming apparent. Canada unquestionably suffered proportionately to her population, and the actual losses as well as the additional amount of margin put up by thousands of investors have seriously curtailed buying power. The prospects are that, unless the Federal Government makes a thorough study of the situation, and adopts a constructive policy with regard to it, there will be widespread misery and distress throughout the country."

"The Minister of Labor blames the present crisis on the crop conditions, without reflecting that this cause of unemployment has not been a factor in bringing on the situation in the United States. Canada lags slightly behind the United States in the cycle of depression, but, in addition to more drastic seasonal fluctuations, the poor wheat crop, and the slow movement of wheat, every factor which is causing unemployment in the United States has its parallel in Canada."

"It is almost incredible that Mr. Heenan should state publicly that 'unemployment in Canada, apart from the normal seasonal slackening, is wholly traceable to one uncontrollable cause.' He must be aware that, owing to the steady introduction of labor-saving machinery, many thousands of Canadian workers have been thrown out of work. Those over 45 are practically barred from getting new jobs, while the inadequacy of wages generally prevents the purchase of the commodities manufactured by the workers themselves, the surplus production piling up until a crisis ensues."

"These are some of the questions which the proposed conference would consider. It would mean that some effort was being made to head off depression instead of waiting until conditions become desperate. Even now, at the beginning of winter, almost every Canadian city is beset by unemployed men and women."

"In thousands of homes starvation is being staved off by voluntary societies, which are unable to meet all the demands made on them. The response received from all over Canada to the suggestion of an unemployment conference speaks far more eloquently of the actual facts than the 'graphic picture' portrayed by Mr. Heenan."

NAVAL PARLEY WILL INTRODUCE MANY PROBLEMS

Washington.—With the departure of the Japanese delegation to the London disarmament conference, Washington settled back to appraise the preliminary conversations between the representatives of Japan and the United States and to re-arrange the problems which will be confronted in the new light thrown upon the Japanese position.

The double-barrelled phrase "optimistically hopeful" is used by Secretary of State Henry Lewis Stimson, head of the United States delegation, and Reijro Wakatsuki, chief of the Japanese, in describing their post-conference sensations. But there are two flies in the ointment.

Japan feels the submarine essential to her security as a scattered island realm and secondly she wants 70 per cent. of the British and United States strength in auxiliary craft and manifests a strong interest in the largest type of cruiser—10,000 tons. If Japan is to have many large cruisers, Australia and New Zealand must find it difficult to agree to Great Britain making up tonnage in smaller vessels of the same class.

It is not at all certain that Japan would be willing to consent to 10,000 ton cruisers in with other auxiliary vessels and accept less than 70 per cent. tonnage of the big boats. Leaving the largest cruisers out of consideration, Japan at the moment appears to have a strong favor upon a global tonnage agreement. The attitude falls in with the French idea but does not seem to jibe with the Anglo-U.S. agreement upon "parity category by category."

The Pacific naval bases under largely Japanese consideration of the Japanese. The delegates were asked whether Japan had received any intimation of the intention of Great Britain with respect to Singapore. The reply was, of course, in the negative, the spokesman adding with a smile the intimation that work was to cease would be received with great pleasure. Upon this the whole delegation and the Japanese newspapermen laughed heartily and vigorously nodded their heads.

Will Address

Naval Conference

King George To Preside At Opening Of Conference In January

London, England.—King George, departing radically from royal precedent, will preside personally at the opening meeting of the powerful naval disarmament conference on January 21, and deliver the opening address to the assembled statesmen. Prime Minister MacDonald made this announcement in the House of Commons recently with great enthusiasm.

Mr. MacDonald gave no reasons why His Majesty had decided to open the conference in person, but observers at Westminster believe this is Great Britain's announcement to the world that she is taking the efforts of the conference to reduce armament with the utmost seriousness.

It is known that the King himself, is awaiting the conference with the greatest interest and optimism.

Although the King regularly addresses the opening of parliament, it is considered extraordinary that he should speak at the opening of an international conference. This will be his first speech in more than a year.

Commanded Princess Pats

Colonel Agar Adamson, Who Died In England, Was Buried In Ontario

Port Credit, Ont.—The funeral of Colonel Agar Adamson, former Commander of the Princess Patricia's Canadian Light Infantry, who died in London, England, was held at Port Credit recently. The funeral arrangements were in charge of the Officer Commanding Military District No. 2, and the deceased was accorded full military honors.

The body was brought to Port Credit by a special train and conveyed to Trinity Anglican Church, where the service was conducted by Rev. H. Earl. Interment was made in the Trinity Church Cemetery.

Gift From U.S. Minister

Ottawa.—Hon. William Phillips, retiring United States minister to Canada, has endowed a dormitory lodge to be known as the Ottawa Club at Camp Fortune, in the Gatineau Hills. The club has received a cheque which will make possible the erection of the lodge. During his stay in Ottawa Mr. Phillips was an enthusiastic skier.

What would it cost to replace your farm buildings if they burned?
Or your stock if they died?
Or your crop if it were "hailed out"?
or
YOU if THAT happened?

YOU are more valuable than buildings, implements, stock and crops put together. What is your REPLACEMENT VALUE?

You pay your farm helper from \$50 to \$100 a month—and board.

Are you worth that much?

You can take out a life assurance policy to provide \$50.00, \$75.00, \$100.00 a month or more in case of your death.

This will provide the wage of a hired man at least, and enable your family to hold on to the farm.

See the Sun Life man. He has a policy for every need.

NOTES AND COMMENTS

We welcome a new year, with its opportunities for more useful work, more service and if needs be more sacrifice. Optimism and faith is the key note of progress, combined with vision and work. He who looks forward to leisure and ease alone is likely to be disappointed. Rewards and pleasures come to those who work for them, and the more faithfully one applies himself to his daily round of duties, the keener will be his appreciation of whatever brief surceases of toil he may enjoy throughout the year.

The Christmas season gives one a short time for relaxation and reflection. Memories from childhood to the present flit through the mind; the good acts that one has benefitted from claim a share of one's thoughts, and there is a desire to at least do something to make life happier for those less fortunate than ourselves. The moral and spiritual effect of Christmas is a mighty powerful influence, and if the same spirit is maintained throughout the year, what a lot of additional pleasure would be mingled with our daily lives.

If sidewalks are laid to walk on, they should be kept clear of snow. There are some spots where it is safer to walk in the road, and the council should certainly see that walking on the sidewalks does not endanger life and limb of ratepayers. The town's liability as well as the individual citizen is made plain in the bylaw covering the cleaning away of snow and ice from the sidewalks.

Instead of having to expend ten times the labor than would otherwise be necessary, sidewalks should be cleared as soon as possible after a snowfall. Another case where a little "jacking up" is necessary is against those who will dump rubbish where it should not be. The town provides dump grounds, and if we are to maintain a clean appearance, then the works committee should give instructions to see that bylaws are observed. Bylaws usually are put on the books for a purpose.

A visit to towns such as Bauff, Waterton Park or Jasper conveys an idea of what can be accomplished in maintaining a pleasing appearance. Certain restrictions are enforced and a well defined building plan must be complied with. It does not take a lot of money to have neatness and cleanliness, and civic pride should prompt people to take a personal interest in the appearance of the town they live in. It is a reflection of ourselves, every bit as much as if we look in the mirror and feel somewhat taken aback if we find we have been walking around with a dirty face.

So many enquiries were received as to why The Journal was not published last week, that we must explain. Most of the stores were closed the day after Christmas, and as there was not sufficient business in sight to warrant the expense and time of issuing a paper the day after Christmas, and we ourselves were glad to take advantage of the opportunity to enjoy a holiday, it was decided to call it off. One subscriber jocularly remarked that he wanted a five-cent rebate.

Time represents money, and he who does not value it will find himself on the debit side of the ledger when he comes to settle up his affairs at the end of the year.

Individual problems can be settled best by the individual who confronts them. You can't get away with "Let George Do It" when it is something that you only can do.

The Boy Scouts are putting on a whist drive next Monday. The movement is deserving of the support of the public, for there is no organization that is more worthy. The boys are canvassing the town this week selling tickets and the proceeds will be used to help in purchasing uniforms.

The Christmas season passed very peacefully, and very pleasantly. The revival of work at the mines helped to spread a little more Christmas cheer than had been anticipated after the very quiet preceding six months, and relieved to some extent the problem of relief for the unemployed.

In six years the Crows Nest Pass Musical Festival has developed from a local affair to one of considerable interest throughout southwestern Alberta. It is a striking tribute to the ambition of people in these mining towns, and indicates that there is a wealth of musical and vocal amateur talent which is aspiring to higher things in the musical world. From Fernie to Lethbridge this annual event attracts competitors, and it is highly gratifying to see that it is accorded liberal public support. The syllabus just published shows the dates as April 21-22-23 at Blairmore.

"Say it with apples," Canadian Pacific Express Company slogan. Sending of gifts by Canadians to friends in Great Britain and Europe, is being extended from Christmas and New Year presents to gifts sent at all times of the year. With the present banner apple crop of Canada, the fruit can be bought at a reasonable price and its quality is of the highest. If sent overseas before the close of navigation on the St. Lawrence, cost will be considerably reduced.

Over 300 officers and men of the 4th Canadian Mounted Rifles first mounted regiment, formed in Toronto at the outbreak of the Great War, is holding its first reunion since the war at the Royal York Hotel, Toronto, November 29 next. The unit is proud of the fact that it still has in its ranks T. Holmes of Toronto, youngest Victoria Cross holder in Canada, who captured an enemy machine gun nest singlehanded at Passchendaele.

An apple tree, over a hundred years old, remarkable for its symmetry and having this year produced 22 barrels of Calkin Pippin apples, is attracting much attention in the orchard of Downey Morton, Lakeville, King's County, Nova Scotia. Mr. Morton picked apples from the same tree 55 years ago and it was then a fully grown tree. Today he believes it to be well over the century mark.

The arrangement existing between the Canadian Pacific Railway and the Government of Nova Scotia with regard to English immigration which has proved mutually satisfactory, will be continued for the coming year, is the recent announcement of L. B. Fraser, secretary to Premier Rhodes.

Superior grazing conditions in British Columbia are given as the reason for a shipment of 3000 grade Ramboulet ewes and rams from Montana recently made to the Vancouver Live Stock Exchange for distribution to sheep raisers in the Kamloops and Cariboo districts of British Columbia.

The farm of Gustav Elzert of Wetaukwin that won the trophy recently offered by the Edmonton Board of Trade for the best field of wheat in the northern half of the province of Alberta as well as the cup donated by the Alberta Government for the best farm in Alberta, yielded 46 bushels to the acre on a 100-acre field and graded No. 1 hard. Elzert is another farmer who came to Canada without capital and has made a striking success.

The British Family Re-Union Association has just been created by the Canadian Pacific department of Colonization and Development—backed by influential organizations, groups and individuals—to promote increased British settlement in Canada. It will particularly benefit heads of families in Canada desiring to have their relatives or friends overseas to emigrate to the Dominion for permanent residence.

Born on Canadian Pacific Railway flyer "The Dominion," near Kamasa, British Columbia, recently, a child has been christened Christina Patricia Rosalind, the names being arranged to make the initials "C.P.R." in honor of her birth on the railway. Little Miss C.P.R. is the daughter of Mr. and Mrs. J. Peterson, of North Vancouver, B.C.

"The biggest and most brilliant season of winter sports in the history of Quebec City," is the description of the forthcoming festivities at the Ancient Capital received at general tourist headquarters of the Canadian Pacific recently. The season which is now open will include four high lights: the Fete de Nuit, January 20; the Ice Pageant, February 12-13; the International Dog Sled Derby of 120 miles, February 20-22; and the Masquerade Ball at the Chateau Frontenac, February 21.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, recently presented the Dominion Open Revolver Championship trophy and medals to C.P.R. police team No. 1 of Ontario, which defeated the Lethbridge team of the Royal Canadian Mounted Police in the final with a score of 1412 out of a possible 1500. Members of the winning team are Constables Prendergast, Gryves, Tingman and MacDonald and Investigator O'Brien.

Canadian Pacific liner Empress of Japan, largest and finest ship on the Pacific coast, was launched from the yards at Glasgow December 17 and will be in service from Vancouver early in the New Year. Well on the way to launching is the 40,000-ton giant, the Empress of Britain, destined to revolutionize Atlantic travel to and from Canada to Europe with a scheduled time of five days from continent to continent.

Skiing over two hundred miles of snow-blanketed wilds and scaling five passes of which three have an altitude of over 8,000 feet, six intrepid skiers of the Jasper Park Ski Club, will in January make the trip from Jasper Park to Banff to attend the annual winter sports carnival that opens in February.

New Brunswick's field crops for 1929 have an estimated value of \$25,722,000 as compared with \$18,275,000 for 1928 and \$18,413,500 for 1927, according to reports from the Dominion Bureau of Statistics just issued.

Over \$1,500,000 was mailed recently as final payments to members of the coarse grain pools of Manitoba and Saskatchewan on the 1928 crops of oats, barley, flax and rye. This brings total payments to provincial pools by the Central Selling Agency to 61½¢ per bushel on oats; 69½¢ per bushel on barley; \$2.28½ per bushel on flax; and 98½¢ per bushel on rye.

Manitoba's success at the Royal Winter Fair, Toronto, recently, is described by Premier Bracken as "the most remarkable ever achieved by the province." Both in number and variety of championships and other winners the records of past years have been far eclipsed.

In its five years of operation as a subsidiary of the department of colonization and development, Canadian Pacific Railway, the Canada Colonization Association has placed 4,228 families on 835,000 acres of land in western Canada, Colonel J. S. Dennis, president of the association, submitted to its directors at Winnipeg recently. The association has at present opportunities to settle 1,507 families on 232,506 acres in the prairie provinces.

Cash prizes exceeding \$200,000 will be offered at the World's Grain Exhibition and Conference to be held at Regina, August 1-13, 1932. The major prizes totaling \$70,000 will be for wheat. It is aimed to have field tests to verify the purity of the grain and also to have milling and chemical tests to establish quality.

Immigration to Canada during the six months, April 1 to September 29, 1929, totaled 120,324, of which 51,731 were British; 20,709 from the United States; 21,891 from north-western Europe, and 25,987 representing 33 other races. Total immigration same period of 1928 was 123,463.

Official opening of the enlarged Empress Hotel at Victoria to which a huge addition has recently been completed at a cost of approximately \$3,000,000, will be held December 21, it is announced by H. Mathews, general manager of Western Canadian Pacific Hotels.

Gold produced in Ontario in the first nine months of 1929 had a value of \$24,738,665, or in excess of a million dollars over value of production in first nine months of 1928.

Breaking all previous records for handling of Japanese oranges, a special Canadian Pacific Railway train consisting of 22 cars of the Oriental fruit, arrived at Winnipeg recently about 60 hours after leaving the coast, in time for the first Yuletide oranges to be on the market. The whole consignment from the coast consisted of 89 box cars holding a total of 3,250,000 of the Japanese delicacy.

Lower temperatures are forecast for January.

WORLD HAPPENINGS
BRIEFLY TOLD

The \$180,000,000 income tax reduction resolution was signed by President Hoover, at Washington.

France's largest aeroplane, the D-870, passed its initial tests satisfactorily, lifting a load of five tons after a run of 30 meters.

John McGeogor, prominent real estate man, was elected president of the Canadian Club of Winnipeg, at the annual meeting held recently.

British United Press is reliably informed that Ludwig Kleinwachter, formerly Austrian consul in New York, has been appointed to represent Austria at Ottawa.

Every one of the 45,000 votes cast in the recent civic election in Winnipeg, will be carefully examined by a commission investigating legal and illegal plural voting.

Little probability exists at the moment that legislation will be introduced at the coming session of parliament for payment of relief to dependents of prisoners serving time in Canadian penitentiaries.

Cruiser cars equipped with radios may be adopted by the Montreal police department in the near future. Detroit and many other American cities have already established this service and Montreal may follow their example.

A delegation representing the Federated Association of Letter Carriers went recently upon Hon. P. J. Veniot, postmaster-general, to interview him regarding salaries and working conditions of workers in the postal service.

The World's Poultry Congress

Canada To Take Important Part In Congress To Be Held In London, England

Preparations for the fourth World's Poultry Congress, which will be held in London, England, in July, 1930, are well in hand. Canada will take a very important part in this Congress. The Dominion is fortunate in having as a leader in poultry matters, Mr. F. C. Efford, the Dominion Poultry Husbandman, who is the president of the World's Poultry Science Association, under whose auspices congresses are held.

Mr. Efford recently concluded a tour of the countries in Europe and the near east, and has returned with the assurance that the great nations of the world are preparing to make exhibits and participate in the presentation of papers on poultry topics.

The London Congress, like the one held in Ottawa, in 1927, will include a live-stock exhibit in which hundreds of varieties of fowls and rabbits will be displayed. Canada's exhibit in this section will include several hundred head. The national exhibits for Canada are being prepared by the Federal and Provincial Departments of Agriculture. The purpose of these will be chiefly to illustrate the part being played by education, research and economics in the development of the poultry industry.

The Congress will last for a full week in which five sessions will be held simultaneously. In these sessions papers will be presented and discussed on breeding and incubation, nutrition and rearing diseases and their control, economics including marketing, and education. An elaborate program of excursions and entertainments is being provided for the delegates, a large number of whom it is expected will be from Canada.

Alberta Clay Products
The Alberta Clay Products Company, Medicine Hat, is reported to have sufficient orders in sight to keep the plant fully employed for the next twelve months. It is now running a day and a night shift.

Next to grape wine it is said that Japanese sake, or rice wine, is the oldest alcoholic beverage known to man, its use dating back over 2,000 years.

A twelve-cylinder automobile attracted much attention at the recent automobile show, at Paris, France.

"Adolf, if you flirt with this shapely person, there will be a misfortune."—Lustige Sachen, Le pig.

Prevention Of Colds

New York Doctor Gives Ten Rules To Follow

In November there were 400 deaths in New York from pneumonia, and 25 deaths from influenza, and the civic health commissioner, Dr. Wynne, has broadcast some general advice to citizens, advice which is probably as good anywhere as in New York.

Dr. Wynne set forth 10 rules for preventing colds. These are:

1. Eat plenty of nourishing food.
2. Drink plenty of water; bathe frequently.
3. Sleep eight hours each night.
4. Breathe deeply while in the open, but through the nose.
5. Make certain that your home is well ventilated.
6. Make certain that the air is not only fresh and of the right temperature, but that it contains moisture.
7. Dress according to the weather. Do not permit yourself to chill.
8. Avoid using other's towels in homes where there are colds.
9. Keep away from persons who have colds.
10. If you contract a cold, go to a doctor. Do not resort to nostrums.

After all even expert advice is merely the application of common sense as stated above. A good deal of ailment in the winter is caused by defective ventilation and overheating.—St. Catharines Standard.

Winnipeg Newspaper Union

(By Annabelle Worthington)

A black transparent velvet unrivaled for restaurant and afternoon occasions with its dipping pointed hemline emphasizing the chic femininity of new elegance in mode.

The charming cape collar and jabot is of beige sheer net cloth knotted at end of becoming open V-neckline.

Narrow belt marks higher waistline of molded bodice. Sleeves are slenderly fitted below the elbow.

The classic arrangement of loose hanging panels of skirt, attached in pointed effect well below the hips, create a youthfully slim appearance.

Style No. 3139 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It is really very simple to make, and the saving enormous.

It is tremendously smart in crepe Elizabeth in dark dahlia purple shade.

Another interesting idea, decidedly quaint and pretty, is dull black silk crepe with collar and jabot in egg-shell shade.

Printed sheer velvet in dark brown tones with collar and jabot of harmonizing shade canton crepe is attractive.

Sheer net cloth is exclusive fabric for formal afternoons and Sunday night occasions, and adapts itself admirably to this model.

Georgette crepe, crepe de chine, crepe Roma and crepe satin appropriate.

Pattern Price 25 cents.

FLYING MOVIES ARE LATEST THRILLS FOR TRANSCONTINENTAL TRAVELLERS

Cloud Cinemas Made Possible By Symposium Of American Scientific Genius

American inventive genius in the laboratories of several of our largest corporations recently joined hands to make a Jules Verne dream come true.

Only a few years ago anyone who predicted that we would have flying theatres would have run the grave risk of being rushed to the observation ward of the nearest asylum.

Yet the flying movies are here. Within the last two weeks this miracle of modern science has been perfected and regular passengers bound from coast to coast in 48 hours are witnessing motion pictures above the clouds.

Newsreels, comedies and super production flick off in perfect shape 10,000 feet in the air travelling 100 miles an hour.

The miracles reputed to the ancient magicians seem insignificant when compared with the fact that you may now lounge comfortably in your big armchair, watching a complete motion picture show while flying over the tallest peaks of the Rockies.

Meticulous scientists, working in distant and unrelated laboratories made possible this really astounding achievement. The Edison Lamp

Recipes For This Week

(By Betty Barclay)

CREAM CARAMELS

- 1 cup table syrup.
- 1 cup cream or rich milk.
- 1 teaspoon vanilla.
- 2 cups granulated sugar.

Mix together the sugar, the syrup and half the cream, and bring slowly to the boiling point, stirring well. Cook until the mixture will form a soft ball when dipped in cold water. Then add the remaining cream and cook again until the candy forms a hard ball when dropped to the water test. Flavor with the vanilla and pour into a buttered pan. Do not stir the candy more than is necessary during the cooking, as stirring will cause the sugar to granulate.

OATMEAL DROP CAKES

- 3/4 cups butter.
- 1 cup sugar.
- 2 eggs.
- 2 cups milk.
- 2 cups rolled oats.
- 2 1/2 cups flour.
- 1 teaspoon baking powder.
- 1/2 teaspoon salt.
- 1 teaspoon cinnamon.
- 1 cup chopped seed raisins.

Cream butter, add sugar, eggs well beaten, milk, and rolled oats. Mix and sift dry ingredients. Add flour mixture to first mixture, thoroughly mix. Drop by spoonfuls on a greased baking pan and bake in a rather hot oven. This makes 32 to 36 cookies.

What a Billion Means

Nice Little Problem To Work Out In Spare Time

It is just as easy to say billion as million. The word has been spoken frequently and familiarly during the recent affair in Wall St., and a public, grown used to large figures, hasn't been so much impressed.

Charles Ransom, lumber man of Memphis, Tenn., turns the microscope of practical imagination on a billion dollars and dramatizes it. Here is how it figures out:

If a billion had been accumulated 500 years before Christ, had not been allowed interest, and had been paid out at the rate of \$1,000 per day every day since, up to and including November 21, 1929, there would still be \$112,868,000 left.

If you don't believe it, figure it out for yourself. And don't forget the leap years.

Devotional Reading: Revelation 9:17.

Explanations and Comments

The Joy Of Belief In The midst of a worshipping multitude, Psalm 122—Psalm 120-134 bear each the heading "A Song Of Ascents." It is thought that there were pilgrim songs sung by the Israelites on their annual pilgrimages to the Holy City at the time of the religious festivals. "The exquisite gems of imagery with which these Psalms are studded add to their wondrousness—the whole cloth on yielding us the most precious impression of the simple, gracious piety of the Israel of the later ages."

Friends came to the Psalmist and invited him to make one of their party for such a pilgrim race to the temple. He recalls in Psalm 122, the joy this invitation gave him his delight in actually standing within the gates of Jerusalem, the Holy City, so compactly built together. How he gloried in its palaces of the Davidic line of kings, its tribunes for judgment, and its sacred temple crowning all! There he meditated upon its history upon the constant going up to it of the tribes of old in testimony of their relationship to Jehovah, to offer thanks unto Him.

The Psalmist's heart is stirred to earnest opportunity, that all shall share in the praise and prosperity of Jerusalem. "The last four verses of the Psalm breathe a spirit of the hope—and for the sake of God, His temple, and His service, he wishes peace to Jerusalem and calls upon others to wish her peace. With love to Israel and love to Jehovah, there is naturally united a warm affection for Jerusalem, a hearty interest in her welfare."—Perowne.

In full assurance of faith, having our hearts and our bodies purified, let us hold forth the confession of our hope that it waver not; for He is faithful who promised.

And let us know one another, taking into account and weighing our neighbors' circumstances and sorrows, and let us with a view, not to exasperating criticism, but with a view to lighten their load and good work, acknowledging honest endeavor and making allowance for imperfection."

Dry Ice

Is Made From Carbon Dioxide and May Soon Replace Natural Product

"Dry ice" made from the soot of factory smokestacks and the exhaust of automobiles, was suggested as a possible substitute for natural ice by George B. Bright, ice manufacturer of Detroit, in addressing the third session of the National Association of Ice Industry at New York. This "dry ice" which is manufactured from carbon dioxide, is being produced in small quantities. Mr. Bright said, and only awaits further research and developments to become a possible substitute for ice in the home, it is at present used chiefly for refrigerator cars and ice cream trucks.

Nearly 100 sculptors are now employed in carving works of art at the L'eghorn alabaster factory in Italy.

Alaska Leads In Airports

Has Ratio Of One For Each 908 Inhabitants

The Alaska gold rush days have been lost in the wash of scores of airplane propellers, and the northernmost possession of the United States stands now in the enviable position of leading the world in the number of airports and landing fields in comparison to its population. With some 60,000 people, and 65 airports, Alaska has one of the latter for each 908 inhabitants.

Nearly 100 sculptors are now employed in carving works of art at the L'eghorn alabaster factory in Italy.

WINDOLITE

MADE IN ENGLAND

The Improved
Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of man and children, and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their abodes.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairies, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunning verandas, school's, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or dip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. A square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

The Singing Fool

By HUBERT DALL
 Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS
 Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, but he doesn't know it. He marries Molly Winton, a haled singer, and wins fame as a composer of popular songs. When, later, Junior, is about two years old, Molly sings with John Perry, Al's best friend. She and Perry take the child Al adores and sail for France. Al, broken by the loss of his darling, derelict, but one night when he revisits Blackie's place, Grace Farrell, now assistant manager, makes him promise that he will stage a comeback. After they plan Al's future, he leaves Grace, promising to return that evening. But as he drifts away, she has not appeared. Grace is worried.

CHAPTER XXVII.
 A few moments later a figure came rapidly around Grace's desk and stood by her side, where she was shielded by the screen from the view of the crowd. It was Al—in new clothes, but with the old smile. As she rose his arms went round her and his mouth pressed against her own. It was the first real kiss he had ever given her!

With Al's arms still holding her close, Grace looked up into his face with an expression in which joy and wonder were mingled. She had dreamed of this hundreds of times, but always believed it could not possibly come true. Now that it had come true it seemed almost unreal, because it was so closely associated with those long-ago dreams. Yet her arms about her were certainly real and Al's kiss had the thrilling reality that never comes in a dream.

"Dear little Grace," Al whispered. "I've been thinking of you all day—seeing you as I left you, standing in the Square, waving to me. I'm late—do you think I wasn't going to show up?"

"I knew you would come," answered Grace softly. "I've always believed in you and I believe in you now more than ever before."

There was a sound on the other side of the nearby door and a waiter entered, on his way to the dining room from the kitchen, just as Al released Grace. But the waiter's late-tell movement and could not hide his astonishment. This little female assistant manager had a reputation around Blackie's place for coldness and aloofness.

"Well," said Al, when the waiter had passed on, "I must find Blackie and tell him what you've done for me. I think he'll be astonished at this quick change."

Al glanced down at his new blue serge, double-breasted suit with a handsome price. Then he struck an attitude, holding his brow before him in front of him in a burlesque pose, as if he were ready to be photographed.

"Look me over, Gracie! How am I?" "Splendid!"

"Well, if you say so I must be good. I have some new evening clothes too, but I'm holding them for another night. No use dazzling you too much at first."

Grace laughed easily at his bantering manner, but behind her smile she was studying him closely. He was a

little too gay and over-excited, his voice and hand trembled every moment or so.

"The next thing to do is to ask Blackie for a job," he said quickly. "Must have something to do, must get to work soon."

But Grace reached out quickly, took him. I just want to talk for a few minutes. Sit down here beside me, Al, quiet his hand and pulled him closer.

"I can see you're a little nervous and excited. You've had a nerve-wracking day. Don't you think it would be better if you didn't start to work right away? I do. If you'll just relax and rest for a few days you'll get your bearings better. You and I will go for walks and talk things over. And on Sunday we might go out in the country."

It was astonishing how quickly Al reacted to Grace's soothing tones and suggestions. He nodded slowly as she talked and the gleam in his eyes from over-excitement faded.

"You're right, Gracie," he agreed. "A man can't let himself go as I've done during all these months, and then come back in a few hours just by buying a few clothes. I see what you mean—take the whole thing more slowly."

"Yes, that's right. Did you go to that hotel you pointed out to me from the Square?"

"Yes, I've got a nice room overlooking the Avenue. But if I'm not to talk with you to Blackie, what do you want me to do now?"

Grace smiled; again he was the obedient child. "I want you to go home and sleep all night long."

"Now?"

"Yes, now. And I want you to call me at home tomorrow at noon."

"I'll just be getting up then—and I must be to breakfast at the Brevoort."

"But who's going to take you home tonight—I counted on doing that."

"Once more the tolerant smile came to Grace's face. 'I'll take myself home. I'll do it alone, and I'll be back in time during these past three years.'

"K. O. If you say so," answered Al, "but you know I don't quite like it. I'm afraid something will happen to you, I feel that I should be protecting you—now."

Grace liked that speech. Self-sufficient though she seemed in contrast to Al, the chief longing of her life was for someone to love and protect her, someone to ~~see~~ where she went and why.

"Well, orders are orders," said Al briskly. "Just a word of greeting to Blackie and then I'm off. I see I'm across the room now. But I'll come back and say goodnight to you."

Al paused. "And—if I do as you say I may have another kiss before I go."

"I think so. In fact, I'm sure of it."

Grace stole a look round her concealing screen to watch him approaching Blackie. Then she stepped back, for her cheeks were crimson from the thrilling sense of his presence. Al had no idea what it cost her to send him home in that business-like fashion. She longed to have him with her every day, every hour, as long as she lived!

The days passed easily, gracefully, happily, and Al recovered rapidly. There were Sundays when they went to the country to wander across fields and sit side by side on low hills, gazing at the golden tree-tops and the misty blue autumnal distances. There were nights when they sat hands clasped, on a green bench in Washington Square, planning the future.

Then the time came when Al's nerves were strong enough to permit him to join Blackie's floor show. He decided to do a few songs every evening in blackface, so no one would recognize him. He didn't want Broadway to know he was staging a comeback—he wasn't ready for the hectic life and rattle-dazzle glitter of the Street of Lights.

But his style of singing was so individual that he was recognized behind his make-up. Then the news penetrated the up-town section—Al Stone was found—and his old cronies began to drift down to Blackie's. Marcus came to see him, song publishers made him offers. Again Grace saw the look of intense strain in his eyes; again plans for protection were made. Al made Grace his manager and refused to see anyone on business.

So the days drew on into winter, with Al close to complete recovery and almost ready for Broadway. Marcus wanted him to write some songs and sing in a revue and he had promised to do it.

During this period Grace was conscious of a sense of strain in herself. At first she wondered what caused it, then she decided it was the memory of Molly. Whenever Al mentioned Molly it was in a disinterested tone, but he always spoke of Junior with tender devotion. Grace asked herself these questions over and over again: Where was Molly? Had she obtained her divorce? Wasn't there a chance

that she might return and try to win Al back again?

(To Be Continued).

Filming Indian Life

Motion Pictures Will Preserve Usages and Customs of Aborigines of the Plains

The chiefs of the Blackfoot Indian reservation, Alberta, approve of the motion pictures which are being taken of their tribe for the National Museum of Canada, according to Mr. J. J. Gooderham, Indian Agent to these Indians, who has written to this effect in a letter just received at the Museum.

The Museum archaeologist visited these Indians for nearly a week in October, 1928, and took some 800 feet of motion picture film, but as the Sun Dance is given only in summer, he could not take that, the most interesting ceremony of any plain Indian tribe. He again visited them for six days in October last, securing many specimens, but no motion picture film, as his allowance of film for the season had long been exhausted.

The chiefs invited him to attend a pipe ceremonial but, having no film for the purpose, he went elsewhere to buy specimens for the Museum. The chiefs, according to Mr. Gooderham's letter (dated December 3, 1928), approve of the National Museum taking motion pictures even of the Sun Dance. "Seeing is believing" with the old Indians states Mr. Gooderham, who goes on to state that the Museum postcard showing exhibits in place, which "will do him to show the Indians, 'we'll do much to make clear the Museum work and the object of the archaeologist's visits.'"

In a few years the old Indians will be dead, and as the young are more interested in wheat crops, threshing, elevators, auto trucks and rail haulage, in the old dances and rituals, consequently if motion pictures records of these are not soon taken the chance will be gone forever.

Visits Interesting Places

Mr. Jennes, Of the Department of Anthropology, Ottawa, Recounts His Experiences

Diamond Jennes, Chief of the Department of Anthropology of the National Museum of Canada, who recently returned from the Fourth Pacific Scientific Congress, held in Batavia, Java, where he represented the Canadian Government, gave an announcement of his impressions of that interesting country at the weekly meeting of the Goro Club, held at the Daffodil, Ottawa.

Mr. Jennes is perhaps best known for his studies of the Eskimo, commenced when he was ethnologist on the Canadian Arctic Expedition from 1913 to 1916. Several reports by him on this subject have been issued by the Canadian Government; and the MacMillan Company has recently brought out his popular book "The People of the Twilight." But his Arctic experiences, however, Mr. Jennes spent a year among the natives of New Guinea, and published the results of his investigations there through the Oxford University, and the Polynesian Society of New Zealand.

Mr. Jennes has charge of the totem poles at the National Museum, and in 1926 and 1927, it was he who loaned his archaeological to take charge of the Dominion Government totem pole preservation along the C.N.R. in Skeena Valley, British Columbia.

Ireland Claims Briand

Prime Minister Of France Is Of Irish Descent

Ireland claims a special interest in Mr. Briand, now for the tenth time Prime Minister of France, for though a Breton, born at Nantes, the great statesman is of Irish descent. His great grandfather, Conn Br'and, was an Irishman, who settled at Flinisterre as overseer of a bleaching factory, and thence his family migrated to Nantes. Connell is said to have claimed descent from the great King Brian Boru.

Saskatoon's Power House Revenues

Power house revenue at Saskatoon for October was \$78,260.15, as against \$70,029.16 for October last year. Operating costs and fixed charges were respectively \$66,068.76 and \$57,910.50. Had the same rates been in effect this year as last, the revenue would have been much higher.

A minister in a country church in Scotland stopped his sermon to ask a listener who was somewhat deaf: "Are you hearing, John?" "Oh, yes," was the answer, "I am hearing, but to verri litt' purpose!"

Benjamin Franklin was the first Postmaster-General in the United States. He was appointed for the Colonies in 1775. He received \$1,000 a year in this capacity.

Eat For Health and Enjoyment On Christmas

Appetite, Digestion and Good Health Wait On Following Menu

White Christmas is recognized as a day of feasting and its celebration would not be considered complete without a bountiful repast, the choice of the viands that compose the holiday menu has not always been wise. To eat well on December 25th, is excellent, but to suffer from a bilious attack on December 26, is not.

Through knowledge of food and combinations we now have a meal which is perfect in its content and amount, and satisfying to the most fastidious. Here, compiled by Mary A. Sustainer, well known American dietitian, are two menus that will serve alike health and appetite.

LIBERAL COST MENU

Tomato Bouillon
 Olives, Celery, Toast Sticks
 Roast Turkey, Chicken or Duck
 Sweet Potatoes, Dressing
 Buttered Cauliflower

Gravy
 Whole Wheat Bread, Butter
 White Salad, Crackers
 Tangerine Ice, Small Cakes
 Coffee, Cream, Sugar
 (Milk for Children).

LOW COST MENU

Cream of Celery Soup
 Crackers
 Mock Duck
 Mashed Potato, Gravy
 Chopped Cabbage
 Whole Wheat Bread, Butter
 Carrot and Celery Salad
 Tapioca Cream with Apples
 Sweet Coffee, Milk
 (Milk for Children).

Lightest Metal In World

Lithium, Formerly Rare, Is Now Produced In Ton Lots

Production by the ton of a metal that floats like corn on water, the latest achievement of U.S. metal manufacturing, was revealed at the New York Electrical Society meeting by Dr. W. C. MacFarvish, professor of chemistry at New York University.

The substance is lithium, the world's lightest metal, silvery in color, softer than lead, one half the weight of water and such a ready mixer with other metals that its use ranges from aviation to sweet-toothed bolls.

Although recently produced commercially in Europe, lithium still is so rare that chemical catalogues at New York University quote it at \$240 pound.

The achievement is a quantity of production method, completed barely a month ago, making it for about \$15 a pound in ton lots.

The big field of lithium is in alloys the future of steel-making. It loses its softness when increased with lifting power of helium gas by about 15 per cent. by one of its peculiarities, which is sponge-like absorption of gaseous impurities.

Mr. Pester: Yes, it was a good idea to get a cat to clean out the mice. But why did you pick out a tomcat?

His Wife: Why, I thought a female cat would be afraid of mice.

The state department has been instructed by President Hoover to invite all foreign governments to participate in the world's fair, to be held in Chicago in 1933.

Soft corners are difficult to eradicate, but a Holloway's Crum Remover will draw them out painlessly.

Madras, in India, is one of the world's flattest cities, its highest point being only 22 feet above sea level.

The sea gets much salt from volcanoes, which discharge hydrochloric acid, one scientist concludes.

FAINT, DIZZY SPELLS

Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salsbury, N.B., writes: "I was troubled with faint, dizzy spells and when I would lie down I would suffer terribly with smothering spells. I got so bad I had to sleep propped up in bed."

"My doctor said it was my heart and nerves, and that I needed a good heart-tonic."

"I was advised to take

MILBURN'S HEART NERVE PILLS

and I had not taken one box when I could lie down and sleep like a child."

Price, 60c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Facing Many Dangers

Toronto Professor Going To Abyssinia To Photograph Script Of Old Testament

Jealously guarded by monks for more than 2,000 years, Ethiopic translations of the Old Testament are calling Rev. S. A. B. Mercer from his chair in Oriental Languages and Egyptology at Trinity College, University of Toronto, to brave the dangers of Abyssinia. He will photograph the manuscript and return to the calm of variety columns to use his prints of the ancient writing to enhance the world's knowledge of holy writ.

It was in the fourth century B.C. that the Old Testament was translated into Ethiopic, the ancient language of Abyssinia, and no European has ever glimpsed the manuscript, hidden in Coptic monasteries as the monks' most valuable possessions.

"I have conceived the notion of preparing a copy of the Coptic scripture from rotographs of the oldest manuscript I can find," said Professor Mercer last day.

The Old Testament text in Europe, they are comparatively recent dates, and many errors have crept into them. In study of the Old Testament use is now made of practically every language into which it has been translated except Ethiopic.

It is to supply this last link in the scholarship of Biblical history that Professor Mercer will travel without white companions through hundreds of miles of untracked African bush.

"It will be terribly hard, of course," he admitted, "but I think it is a work that should be done."

In 1916 the savant was responsible for certain Abyssinian translations which brought him into touch with the Ahuma, patriarch of the Abyssinian church. Upon the goodwill then built, the adventurer stakes his bid for success in entering the monasteries and on his journey he will be guarded by native soldiery from attacks of hostile savages.

Professor Mercer was led from New York on December 17, and will enter the second stage of his journey from Marseilles to North Africa on January 24. He carries a specially designed camera.

Filming Wild Life

Alberta Government Taking Pictures For Educational Purpose

Wild life in the provinces of Alberta is being illustrated by the Alberta government in about 30,000 feet of film, and the work is not yet complete. Probably the chief interest in the film so far produced in the work, which is for exhibition and educational purposes, are pictures of a nest and eggs of a blue goose.

The pictures are of native birds, chiefly, and bird nests, eggs, etc., but there are also illustrations for farming in Alberta. The work of photographing wild life in the province will be continued next summer. It is understood, the idea being to secure films showing every phase of wild life, birds and animals. The pictures of the blue goose nest and eggs were obtained at Bendick's sanctuary, east of Leduc. The first showing of the film took place recently at the Spruce Lake school, Leduc district.

For Benefit Of Pedestrians

England Has Novel Scheme Whereby Pedestrians May Control Traffic At Crossings

From England comes the announcement of a novel scheme to protect the rights of pedestrians in this age of ever-increasing automobile traffic. Electric buttons would be installed on street crossings whereby the lowly man on foot would himself be able to operate the "Stop" and "Go" signals.

But not without certain restrictions. When he had halted traffic it would be but one-quarter of a minute before the signal automatically returned to "Go," and it would then be three-quarters of a minute before anyone else could again gain the traffic. Thus the pedestrian would be given power to control the road one-quarter of the time.—New York Evening Post.

Mrs. N. (returning from three months' vacation)—Alma, do you think my husband has been longing for me while I was away?

Alma—'I hadn't noticed anything until yesterday, when he seemed very gloomy.

Aluminum resins'ed a curiosity of no particular usefulness for almost 50 years after it was first produced.

Little Helps For This Week

"For all that is in the heaven and the earth is Thine."—1 Chronicles xiii. 11.

There shall never be one lost good! What was shall I've as before: The evil is null, is nought, is silence implying sound: What was good shall be good, with, for evil, so much good more.

On the earth the broken are; in heaven the perfect round. —Adeline D. T. Whitney.

No good that has been truly meant, though in the midst of mistakes, shall, in any upshot of it, be utterly lost. In the end of things the angels shall always come and gather the wheat from among the tares. —Adeline D. T. Whitney.

No good deed, no genuine sacrifice, is ever wasted. If there be good in it, God will use it for His own holy purposes; and whatever of ignorance, or weakness, or mistake was mingled with it will drop away, and the withered seeds drop away when the full flower has blossomed.

—Frederic W. Farrar.

Worms, however generated, are found in the digestive tracts, where they set at naught the foodstuffs, and the disturbances detrimental to the health of the child. There can be no comfort for the little ones unless the burrowing intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Will Aid Fire Fighters

Carrier Pigeons To Be Used In Northern Manitoba

Carrier pigeons will aid next year in the battle against the forest fires in northern Manitoba. Rangers of the Forestry Department of The Pas district will take the birds to their territory and use them for speedy transmission of reports to the home base.

Robert Harvey, in charge of the Cormorant Lake base, declares the plan is not part of a government fire-fighting program. It is, rather, his own way of putting into play a pet hobby.

If the population of South Africa goes on increasing within the next fifty years at the present ratio, the white population will increase to 4,000,000 and the blacks to 27,000,000.

Senior Cesar Zumeta, Venezuelan representative on the council of the League of Nations, was elected vice-president of the International Conference on the treatment of foreigners.

A large number of the new aeroplane engines are of the fixed radial air-cooled type.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was bedridden all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children, and I am getting along nicely now."

—Mrs. J. Malin, R. R. No. 3, Barton St. East, Hamilton, Ontario, Canada.

Personal and Local

Ross Powell came down from Calgary to spend a few days with his parents.

Sidney White, of High River high school, spent Christmas holidays at the home of Mr. and Mrs. G. Odell.

Ethel Wilson, and Edna Fairhurst were home from their schools to spend the holidays with their parents.

Laura Johnson came home from her school at Cowley to spend the Christmas holidays with her parents.

J. Leslie Price and Rowland Hill of the Bank of Commerce staff, spent Christmas Day at the latter's home at Medicine Hat.

Miss Bessie Dunlop of the high school spent the holidays at her home in Saskatoon; Miss Goosie at her home at New Norway; Miss Florence of the public school staff at her home in Pincher Creek.

A number of young people came home for the Christmas holidays, including Gladys Higginbotham, Raymond Spillers, Megan Jones, Jean Pattinson, Jennie Heibei, Emily Greenhalgh, Gerrie May, Muriel Naylor, from Calgary Normal School; Joy Emmerson, Douglas Bevan, from Mount Royal College, Calgary; Dora Burrows from Edmonton Normal School; Peggy Fairhall and May Bell from Garbutt's Business College.

The high school literary society held a party last Thursday in the K. of P. hall. The early part of the evening was given over to a program consisting of songs, pianoforte duets, recitations and sketches. Grade XII gave a song, Grade IX, two short plays, and a play by pupils of the various high school grades. Grade XI, girls gave a song. Bob Borden a humorous reading. Later Mrs. Altermatt gave a dance program which was continued till 2 a.m. The hall was nicely decorated for the occasion and refreshments were served by the pupils.

ST. ALBAN'S CHURCH, COLEMAN

Service will be held at St. Alban's church on Sun, Jan. 5, at 11:15 a.m. Last Sunday the Rev. A. D. Currie held services at Michel, when he administered Christmas communion.

Mr. Maltby Died at Nelson

F. G. Graham Sr. was called away the day following Christmas to Nelson, B.C., as his father-in-law, Mr. Maltby, was reported to have taken a bad turn.

On Saturday last he passed away, and the funeral was held at Nelson on Tuesday. He was 82 years of age.

Mrs. John C. Cox Passed Away on Monday

The death of Mrs. John C. Cox occurred on Monday morning in hospital here, whilst undergoing a surgical operation.

The news came as a shock to people in town, as she was out on Saturday evening and with her husband attended the theatre. It had been arranged some time previously that she should enter hospital, to undergo an operation for cancer, which it was hoped would benefit her health. She passed away at 11.40 a.m.

The funeral service will be held this evening in the United church at 9 p.m., and the body will be forwarded on the 10.40 p.m. train for interment at Ocean View cemetery, Vancouver. The Eastern Star ladies will hold a short service at the home prior to going to the church.

Deceased had lived here for 18 years, and was 45 years of age. Her old home was in Glamorgan Wales.

The sympathy of many friends is extended to Mr. Cox in his bereavement.

Mrs. D. Davies and daughter Lavinia, of Edmonton, and Mrs. E. J. Williams, of Ponoka, sister of Mr. Cox, arrived on Wednesday and will accompany him to Vancouver.

Munroe McLeod of Canmore is visiting his parents and brother, Dr. D. A. McLeod.

Mr. and Mrs. Harold Houghton and children of Calgary spent the holidays visiting relatives here.

Miss Bessie Fraser of Carmangay has been the guest of Phyllis Shore during the Christmas holidays.

Here and There

(143)

The total forest area of Canada is estimated to be 1,151,654 square miles. Of this area, 865,880 square miles are productive and accessible; a little over one-third of this area bears timber of merchantable size; the remainder carries young growth not yet suitable for use.

The all-lines championship in the Canadian Pacific Railway First Aid Competition has been won by the police team of the Windsor station Montreal for the first time in the history of the championship. Winners took 315½ points out of a possible 425, the nearest to which the team from Nelson were Owen Tomlinson, William Peterson, Ernest G. Wyke, William H. Allison (Captain), and Andrew H. Stott.

More than three hundred people from the west left Winnipeg on Canadian Pacific Railway special travelling to ship's side at Saint John to sail on December 14, to spend their Christmas and New Year holidays in Great Britain. The majority of the travellers represent workers on the land rather than city dwellers.

With the objective of being one of the largest and most palatial buildings of its kind in the continent, the new clubhouse of the Colwood Golf and Country Club at Victoria is rapidly nearing completion and will be ready for formal opening in time for the second annual Empress mid-winter tournament to be played over the famous course February 17-22. It is in replacement of the clubhouse destroyed by fire about a year ago.

Honolulu welcomed S.S. Empress of Canada, giant flagship of the Canadian Pacific "Empress" fleet, when the crack liner arrived December 15, inaugurating Canadian service to the Hawaiian port, with a brilliant civic reception in which the Mayor, the Chamber of Commerce and leading civic representatives and organizations took part. Honolulu gave a real old time "Aloha" greeting, proving its enthusiasm at the decision of the Canadian Pacific Steamships service to include Honolulu as a frequent port of call.

America's first sea-going Christmas Music Festival will take place aboard Canadian Pacific liner Duchess of Bedford which sails from New York December 22 on a 16-day cruise of the West Indies. A special choir has been selected for carol singing and the ship's orchestra will play Christmas music dating from the earliest Yuletide observances in England and Europe. Elizabethan merriment, Yule Logs, Bours' Heads, Barons of Beef and Druidic mistletoe will all feature in the festival.

The wheat championship of the world, won by Canadian farmers fifteen times in the last nineteen years, has again returned to Canada, after being held for two years ago by the state of Montana. This year it was awarded by the unanimous decision of judges at the International Grain and Hay Show at Chicago to Joseph H. B. Smith, of Wolf Creek, Alberta, and formerly of Leicester, England. His farm is 400 miles north of the international boundary and 120 miles west of Edmonton. He won with a sample of Reward wheat developed at the Canadian Government Experimental Farm at Ottawa and put on the market in 1928.
